DETAILED ACTION

Response to Amendment

The after final amendment filed on November 18, 2003 has been entered. An action based on this amendment follows.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steve Shear on November 24, 2003.

The application has been amended as follows:

In claim 36, line 1, [Claim 35] has been changed to --Claim 34--.

Thus the dependency of this claim has been changed from a canceled claim to the independent claim that precedes it.

Allowable Subject Matter

Taking into account the after final amendment and the examiner's amendment of this Office Action, claims 1-5, 7, 9-17, 19-22, 24-34, 36, and 37 are allowed.

The following is an examiner's statement of reasons for allowance: The applicant has added by amendment the limitations of having a single actuator and a single electronics package interfaced with the actuator and having the single actuator receive different types of actuation while the electronics package determines the different types of actuation from the single actuator and initiates the corresponding marking or locating function, depending on the actuation received. In the field of marking and/or locating, this combination of limitations is not taught, nor made obvious, by the prior art. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
